# Saver One<sup>®</sup>

Everywhere for Life

## Saver One® AED series

A full range of everyday defibrillators, practical to bring everywhere. Highly effective for SCA emergencies and easy-to-use for everybody: Lay Rescuers (even without minimal training), BLS or ALS users.

Optimized for use in extreme environments and conditions, they grant fast and efficient defibrillation therapy whenever required.

2010 Guidelines Consistent

**Intuitive & Easy-to-Use:** simple design; calm and clear voice instructions; 1, 2, 3-step operation; CPR coaching (metronome)

**Tough & Handy:** solid and extremely light; shock/drop resistant and crash worthy (IEC 60601-1 clause 21); IP54 protection against dust and water (EN 60529)

**Accurate & Capable:** intelligent arrhythmia detector able to analyse several features of the ECG, detect shockable rhythms (VF/VT) in less than 10 seconds and advise for shocks

**Fast & Effective:** charging in < 5 seconds and ready to deliver shocks using a BTE technology, a proven effective biphasic waveform adapting to the patient chest's impedance

**Maintenance Free:** don't need service programs; run several automatic self-tests (daily, monthly, half-yearly); flashing status lights indicating a ready-to-use system and a low battery level

CONFIDENCE IN SAVING LIVES

- ♥ **Long-Life Batteries** Disposable (min 250 shocks or 4 years in standby) Rechargeable (more than 400 shocks)
- ♥ **Capable on Anyone:** Defibrillation pads (standard or pre-connected) for adult patients (>8 years old or >25Kg) or children with reduced energy (1÷8 years old or <25Kg)
- ♥ **Several Protocols:** Escalating energy from 50 to 360J Customized adult protocols available upon request
- ♥ **Data Management:** xD Card accepted up to 2GB for recording till 80 hours of ECG, events and environmental IrDA Port for data transmission to thermal printer «Saver View Express» patient managing software

- ACCESSORIES**
- Disposable Battery
  - Rechargeable Battery
  - Battery Charger
  - Adult Pads
  - Pediatric Pads
  - Preconnected Pads
  - Carry Case
  - Wall Cabinet
  - Memory Card
  - Card Reader
  - PC Software
  - ECG Cable
  - Thermal Printer
  - AED Simulator

**5 YEARS**  
warranty

Everywhere for Life

## Saver One®

### Public Access Defibrillator

User-friendly PAD reliable for any rescuer even without minimal training. Designed for a public access use and licensed to administer fast and safe treatment against cardiac arrest, anytime and before EMS team arriving. Practical, intuitive with CPR guidance and clear instructions supporting the rescuer through the protocol for an effective lifesaving action. Small and lightweight, works with long-life batteries for a maximum portability. The right solution to save lives anywhere: home, offices, schools, hotels, airports, trains, beaches, sport facilities, discos, dentists, etc.

265x215x75 mm  
1,85 kg with battery

## Saver One D®

### Automated External Defibrillator

Easy-to-use AED reliable for any lay rescuer. Designed to administer fast and safe treatments against cardiac arrests and able to give visual details on lifesaving actions and informations throughout a very large display. Practical, intuitive with CPR guidance and clear instructions supporting the rescuer through the protocol for effective operations. Small and light, working with long-life batteries for a maximum portability. The obvious solution for more expertise rescuers or paramedics to act everywhere. It can be used as ECG Monitoring too and is able to print data by thermal printer via Irda port.
