Complete Solution**

**“LindaCare makes it easy to
aggregate and prioritize patient
data and device alerts into
one straightforward platform,
improving the quality and
efficiency of patient care”**

*Robert Lerman, MD,
Electrophysiologist and LindaCare Chief Medical Officer*

 **LINDACARE**
Enjoy life more.

We solve challenges encountered by all allied health professionals & physicians:

Identifying & triaging urgent alerts

Device-dependent portals waste time

Inefficient clinical workflows

Complex training is costly & causes staffing issues

Remote Transmissions

In-Clinic Transmissions

OnePulse™

All device transmissions unified in one place.

Transmissions from major manufacturers are aggregated, prioritized, and grouped by customizable parameters, making triage easier. Your patients get the care they need, quickly.

Optimise.....

Faster workflows
with ease of data access

Prioritise.....

Distinguish between routine
and urgent episodes

Summarise.....

Aggregate data for
quick comparisons

Standardise.....

One format, one unified view

Communicate.....

Annotate, comment
& report with a click

Gain time

Efficiency

Safety
